

Vampire Kayak Laminates

Canoe Polo kayaks & accessories designed for and used by world champions.

Elite Carbon

This laminate rivals Pre-Preg kayaks for stiffness and durability. Consisting of full layers of Carbon and Kevlar this is the stiffest and toughest of our laminates designed for elite players who want the ultimate in performance. Now available in clear carbon finish. Each kayak comes complete with bumpers and aluminium footrests and weighs approximately 8.5kg.

Export Price \$2100AUD

Full Kevlar

Kevlar kayaks are appropriate for mid-high level players and each size of the Vampire Range is available. This laminate consists of full layers of both Kevlar and Fibreglass and will typically last 2-3 years of top level competition in Australia with few repairs, except from the heaviest tackles. Each kayak comes complete with bumpers and aluminium footrests and weighs approximately 10.5kg.

Export Price \$1500AUD

Full Fibreglass

(Kevlar reinforced)

Fibreglass kayaks are the cheapest in the range of composite kayaks and are appropriate for lower level players or those wanting a cheaper option. The laminate is reinforced with Kevlar to help it withstand the majority of average tackles for a few years but will need repairs after the heavier tackles. Weight of the completed kayak including bumpers and aluminium footrests is approximately 11.5kg.

Export Price \$1200AUD

All prices are in Australian Dollars. Australian Residents must add GST of 10%. Prices do not include Freight or Import Duties or Taxes at the Destination end. Prices effective April 3rd 2008 and subject to change. Wholesale prices are only available to recognised Kayaks Plus Dealers outside of Australia.
